

LITTLE WALTHAM GARDENING CLUB

REPORT ON SPRING SHOW

The Gardening Club hosted its annual Spring Show in early April. Despite the lack of rain and persistent drying winds, entries in the spring bulb sections were of a good quality. This was also the case with the other spring flowers. The photography classes were very popular and the skills seen in the craft section were breathtaking. The cookery classes were well supported and there was a healthy rivalry between the menfolk in the 'men only' class. Their flapjacks were delicious. The plant stall was a crowd puller and together with the raffle and homemade cakes and teas, an enjoyable, convivial afternoon was had by all.

Our next meeting will be on Wednesday 7th May, 7.30pm at Little Waltham Memorial Hall (CM3 3LN). The topic of the meeting will be ' Right Plant, Right Place' and will be presented by Charlotte Power of Writtle College. There will be a plant stall, raffle and refreshments available.

The Club begins its season of summer afternoon outings on Wednesday 14th May when we meet at 'Peacocks', Margaretting (CM4 9HY) at 2.00pm
